

Blue Diamond pro

commercial swimming pool cleaner

The **Blue Diamond Pro** is the perfect robotic pool cleaner for medium sized commercial or public swimming pools. It's designed to be used in swimming facilities at schools, universities, hospitals, and the hotel/motel industry. This unit is fully automatic and completely self-contained. The **Blue Diamond Pro** requires no special hook-up or hoses. The **Blue Diamond Pro** has been engineered to clean every

square centimeter of your pool. The **Blue Diamond Pro** automatically changes direction in different angles with the patented **Aqua Smart System**. With the **Aqua Smart System** installed, the **Blue Diamond Pro** cleans your entire pool bottom in **4 HOURS** or less. In addition to the **4 HOUR** cleaning cycle, the operator can use the remote control feature of the **Blue Diamond Pro** for quick spot cleaning. With the touch of a button, this machine can be steered 360 degrees in any direction.
