

POOL BUSTER®

Hoseless Battery Powered Hand Vacuum Cleaner for All Pools & Spas*

The Pool Buster is a revolutionary product that allows you to clean your pool or spa, quickly.

The powerful Pool Buster is the only manual pool vacuum device that works independently of your pool's filtration system as it contains its own reusable large capacity fine filter bag. The Pool Buster does not use any bulky hoses or electric cords. The cleaner is environmentally friendly and requires no back-washing or refilling of your pool or spa thus saving you money on water and chemical usage.

The lightweight cleaner connects to any telescopic pole*. It can be used to clean any in-ground and above-ground pool or spa. It has its own internal vacuum motor, making it stronger than any other vacuum system. Pool Buster is easily maneuverable, vacuums debris, leaves and algae from your entire pool. Pool Buster can operate for up to one hour on its rechargeable battery and works in any type pool or spa.

The Pool Buster allows you to clean with the simplicity of a home vacuum cleaner bringing modern day technology out of the house and into your backyard swimming pool.

*Pool pole not included with the Pool Buster.
