BLUE DIAMOND™

The world's fastest pool cleaner

- ★ 4 Year Warranty*
- ★ Cleans Pool in 1 hour**
- ★ Caddy Cart Included

Both Blue DIAMOND models come with a handy caddy cart as illustrated. The remote control version comes equipped standard with special PVA brushes.

The Blue DIAMOND is available in two models: Blue DIAMOND™ Standard and Blue DIAMOND Remote™ Control. Blue DIAMOND Remote Control incorporates all of the performance features of the Blue DIAMOND Standard with an additional radio remote control feature. The radio remote control enables you to perform quick “spot-clean ups” or to guide the Blue DIAMOND directly to areas of the pool which may require extra cleaning attention.

Both Blue DIAMOND™ models are computer controlled and pre-programmed to scrub, vacuum and filter dirt and debris from pool bottoms, walls, waterlines and steps – Automatically! The Blue DIAMOND™ cleans all sizes, shapes and types of swimming pools.

The lightweight Blue DIAMOND™ models have their own special filtration pumps and bags located inside the bodies. The units operate independently of any main pool filter thus eliminating the need for back washing and messy, bulky hoses.

Engineered for reliable worry free operation, the Blue DIAMOND™ comes with a 4 year warranty and is programmed to avoid ladders and other underwater obstacles. Simply remove the Blue DIAMOND™ from the box and put it in your pool – No Installation Is Required!
